GET READY
for a *better* kind of
COLLEGE JOB.

Do you love being your own boss, working with new ideas, and bringing innovative products to market? So do we. Ask anyone to describe summer move-out and you'll hear the word "stress" over and over again. It makes sense – during this time you are taking finals, cleaning out your residence and gearing up for travel. We created BoMyDorm to provide our fellow students with an affordable way to make moveout and movein simple. We are the most affordable storage solution available in the market today and offer an unparalleled level of customer service. Our website is the only of its kind, allowing students to manage and view every facet of their move from their computers. Many other companies set out to offer services like ours to students, but no other company has invested in technology, customer service and training in the way that we have.

By providing your fellow students with the BoxMyDorm experience, you are bringing one of the most exciting new college products to your school, and learning about entrepreneurship and business in the process. We put your skills to the test by working with you to create all of the marketing and logistics plans. With a job at BoxMyDorm, you are in control. You are the driving force that will distinguish our company. We promise our dedication to you and are looking forward to working with you this year. Our doors are always open...
